

Energy Management Institute

CERTIFICATION PROGRAM

Your Fast-Track to Energy Industry Success

Energy Management Institute is helping to qualify and fast-track career-minded professionals who are seeking accelerated success in the dynamic oil, gas and power industries. EMI's accreditation is recognized and valued by the top energy-related employers who also make up the thousands of EMI alumni. Start earning your certification today:

1 Choose Your Certification & Apply

Choose the certification that meets your career path and goals. EMI offers two unique certifications: Certified Energy Professional (CEP®) and Certified Energy Trading Professional (CETP®). See below for details on our certification options.

[Apply online at cert.emi.org](http://cert.emi.org). Application fee of \$50.

2 Earn as You Learn

Each EMI course you complete earns EMI credits towards your certification.

And now, many **[On-Demand courses](#)** earn EMI credits making it easy to earn and keep your certification.

Credit Requirements:

Certification requires a minimum of 3 EMI courses and a total of at least 12 EMI Credits.

Courses must be chosen from a list of approved EMI courses applicable to chosen certification path.

See a full list of eligible courses on next page and at:
<http://emi.org/training/competency-paths/>

All required courses must be completed within 24 months of your program enrollment date to earn certification.

Applicable EMI courses that you've completed within 12 months prior to your enrollment in the certification program can be applied to your certification credits.

3 Take Your Certification Exam

After earning the required number of EMI credits, your certification is just a test away. The exam is administered online, at your convenience. Exam fee is \$25.

Awarding of Certificate

Your certification includes a printed, framed certificate that we'll mail directly to you upon successfully passing the certification exam.

Continuing Education/Certification Retention

Keeping your certification is easy! Simply take 2 courses (Live or eligible On Demand course) per year to retain your certification.

Save On Each Course You Take

When you're enrolled in the EMI certification program, you'll get a unique promo code that will give you a **\$200 discount** on each **LIVE** course you take towards earning your certification. **Discount cannot be used for On Demand courses.**

Choose the Certification that's Right for You:

CERTIFIED ENERGY PROFESSIONAL (CEP®)

The first and only fully-accredited designation for oil, gas and power industry practitioners in valuable roles including: Accounting, Marketing, Sales, Management, Distribution, Support, IT, Analyst, Operations, Industrial and Commercial. EMI's CEP® certification will give you a solid knowledge base in the fundamentals of the energy industry and will help you get ahead by demonstrating your commitment, ability and qualification to succeed in the oil, gas and power marketplace.

CERTIFIED ENERGY TRADING PROFESSIONAL (CETP®)

The first and only fully-accredited designation for front, mid and back office practitioners in the exciting world of energy trading. EMI's CETP® certification is designed specifically for those committed to trading operations throughout the world, whether your role focuses on the physical or financial energy market. Our curriculum qualifies your knowledge base in futures, options, derivatives, technical analysis, best practices, and hedging for regulated and over-the-counter energy commodities. Perfect for new or experienced employees looking for an edge to stand out and get ahead in roles pertaining to supporting trade floor operations or traders themselves.

Choose your courses according to your selected EMI Certification. See below for approved courses for each Certification, along with the number of EMI credits each course earns. **Courses in blue are also instantly available On Demand.** EMI On Demand courses offer the ultimate flexibility, allowing you to learn anytime, anywhere. And you get the same in-depth, top-notch learning experience that EMI's in-person classes are known for.
